NOTICE TO OUR CUSTOMERS

We are pleased to announce that Foley's Honey and Tar for coughs and colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiate or other harmful drugs, and we recommend it as a safe remedy for children and adults. Chas. C. Davis.

The United States Supreme Court has decided in effect that the Railroad Commissioners in North Carolina can compel a railroad company operating in that State to so adjust its schedule as to accommodate passengers on other lines from any particular part of the State.

MORE NEWS FROM THE NEW ENGLAND STATES.

I anyone has any doubt as to the virtue of Foley's Kidney Cure, they need only to refer to Mr. Alvin H. Stimpson, of Willimantic, Conn., who, after almost losing hope of recovery on account of the failure of so many remedies, finally tried Foley's Kidney Cure, which he says was "just the thing" for him, as four bottles cured him completely. He is now entirely well and free from all the suffering incident to acute kidney trouble. Chas. C. Davis.

CALL FOR CONVENTION.

OF ALL FRIENDS OF LAW AND ORDER IN KENTUCKY.

Never have such splendid victories for righteousness been won in Kentucky as those put on record in the past twelve months. The allied moral forces of the State have redeemed 96 of the 119 counties and contests are being waged in others with strong assurances of success.

The winning of these splendid victories is but the initial step in securing what every lover of righteousness desires. The law must be enforced. This is the best argument for local option and for any other moral reform that is to be supported by legal enactment and public sentiment.

To lose the reappearing of the fruits of these victories would be a calamity to all that contributes to the peaceful and law abiding character of the communities affected. If a united effort of all interested in the enforcement of law is speedily and efficiently made it will give a stamp and permanency to our work that will insure to the abiding welfare of the state.

To this end, we citizens of Kentucky, being earnestly desirous of maintaining the honor of our State and giving her a reputation for the righteous enforcement of law, do hereby call upon all friends of law and order, assemble at such time and place as shall be hereafter determined for the purpose of devising ways and means for securing a State wide enforcement of our local option laws and such others as the Convention may see fit to consider.

are quickly relieved by Nosena. It soothes the congested membranes, allays inflammation and thoroughly heals and cleanses. It keeps moist all the passages whose tendency is to thicken and become dry. Cures colds, throat trouble, hoarseness, hay fever, "stopped up" nose, breathing through mouth while sleeping, offensive breath etc. It is antiseptic and contains no chemicals or drugs having a narcotic effect or that can cause the "drug habit." Sold by all druggists.

The Jamestown Tercentennial Exposition, a land and water display combined, the like of which has never before been attempted on this or foreign shores, was opened Friday with great pomp and ceremony by President Roosevelt. Governors of many States were present, as well as the diplomatic representatives of foreign nations. The President delivered a lengthy address and also reviewed one of the mightiest fleets of war ships ever assembled.

WONDERFUL ECZEMA CURE.

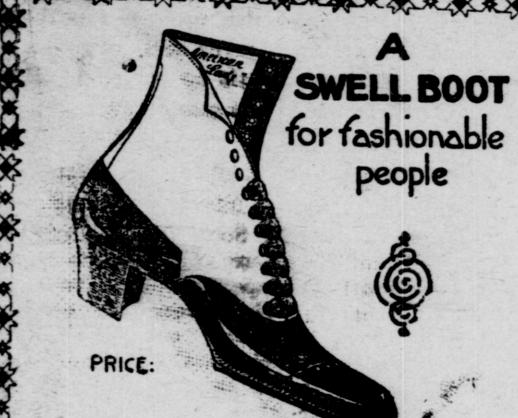

"Our little boy had eczema for five years," writes N. A. Adams, Herketta, Pa. "Two of our home doctors said the case was hopeless, his lungs being affected." We then employed other doctors but no benefit resulted. By chance we read about Electric Bitters; bought a bottle and soon noticed improvement.

We continued this medicine until several bottles were used; when our boy was completely cured.

Best of all blood medicines and body building health tonics. Guaranteed at Chas. C. Davis' drug store.

F. KRUEGER & SON.

OF INTEREST TO THE FARMER.

Some one who has it figured out says that a hen to be profitable to a farmer should give him a profit of one dollar per year. When it is remembered that the farm hen picks up practically all her living it is not hard to find the dollar profit which she makes for the farmer, together with a large surplus as extra good measure.

Corn is the most valuable crop raised in the United States, cotton comes second, hay third, wheat fourth, oats fifth, potatoes sixth, barley seventh, tobacco eighth, sugar ninth, flaxseed tenth, rice eleventh, rye twelfth and hops thirteenth. Probably the most neglected crop and the one that is capable of the largest increase of value is the hay crop.

One bad seed corn ear in a bushel will cause a loss of one-tenth of an acre of crop, amounting to six bushels if 60 bushels to the acre are raised. On 100 acres this would mean 600 bushels. At 40 cents a bushel this would be worth \$240. Three days' work about this time of the year would prevent this loss. The only way you could make money faster would be to rob a bank or hold up a train. Better make a seed testing box and find out the germinating strength of your seed corn, don't you think?

The statement that a good cow may be worth as much as 10 ordinary cows sounds pretty big, but here are the facts given by a dairy expert to prove it. In one herd that was tested a profit of \$48.50 per cow per year was realized, and in another herd the profit was \$2.50 per year per cow, or in other words a cow from the good herd was worth over 10 times as much as one from the inferior herd and was only one-nineteenth the trouble. Test and weigh your milk and weed out the skimmers.

The estimate of the Department of Agriculture is that there were 54,000,000 hogs in the United States. The high prices of last year have had a tendency to stim-

ulate the production, and nearly all the breeding sows being kept in stock, this spring's crop of pigs promises to be unusually heavy.

The demand for pork is continually growing, but the hog-raising business is practically limited to a dozen states. In fact, six states—Iowa, Illinois, Missouri, Nebraska, Indiana and Texas—hold about half the hogs in the whole country. There is room for more expansion in the east and South, but the west can never raise a larger number on account of the lack of feed.

The American Society of Equity on April 1st began a six months campaign to make the price of wheat one dollar per bushel. The battlefield is in the States of North Dakota, South Dakota, Minnesota, Nebraska, Kansas and Oklahoma.

In those states of the total crop of 1906, 248,610,000 bushels were shipped out of the counties where the wheat was grown. Of the wheat grown in other states 185,390,000 bushels were shipped out of the counties where it was grown. It is proposed to get fifty per cent. of this wheat that is ordinary sold, pledged to the American Society of Equity by the 1st day of October.

This fight will be watched with interest by wheat growers throughout the country.

MY BEST FRIEND.

Alexander Benton, who lives on Rural Route 1, Fort Edward, N.Y., says: "Dr. King's New Discovery is my best earthly friend. It cured me of asthma six years ago. It has also performed a wonderful cure of incipient consumption for my son's wife. The first bottle ended the terrible cough, and this accomplished, the other symptoms left one by one, until she was perfectly well. Dr. King's New Discovery's power over coughs and colds is simply marvelous." No other remedy has ever equalled it. Fully guaranteed by Chas. C. Davis.

POLITICS AND POLITICIANS

Col. William Youngblood, of Al-
abama, in an interview declares
that Southern Republicans are far
from being a unit for Taft, and may
not support the presidential choice
at the national convention.

Congressman Theodore E. Burton,
of Ohio, in an address in Trenton,
N. J., Friday night eulogized
the administration of President
Roosevelt and declared himself for
Secretary Taft for President in
1908.

Congressman Ollie James has
given out the following interview:
"I have never wavered in my
belief that William J. Bryan would
be the next nominee of the Demo-
cratic party. He will be chosen
by acclamation. I am strongly of
the opinion that he will be elected.
Not only has he a greater hold on
the masses than ever, but he will
get thousands of Republican and
Independent votes. The policies
of Roosevelt which appeals so
forcibly to the voters today have
all along been advocated by Bryan.
He is the foremost statesman of
the day. He is honest and un-
selfish, and his countrymen believe
in him."

The jury which has been trying
Bill Britton, on a charge of com-
plicity in the murder of James
Cockrill was unable to agree at
Lexington and was finally dis-
charged. It stood 8 for acquittal
four for conviction, and was never
close to an agreement, all the ju-
rors maintaining the same opinion
from the time they first took the
case.

GEO. S. PROCTOR

If Rockcastle has a citizen who is always ready to do a neighbor or friend a favor it is our good friend James Maret, and by the way we want to add that he can come pretty near doing anything that comes his way, and always does it right. We feel under many obligations for the valuable service rendered us last week when we felt it almost impossible to stay in bed and say nothing of getting out a paper.

We are glad to learn that our citizens are becoming aroused to the importance and absolute necessity of building a wall around the south side of Elm Wood Cemetery and making other necessary improvements. There are but few families in Mt. Vernon who do not have relatives buried there and of course those are, or should be interested in the appearance of the last resting place of the dead. We regret to have to say it, but the Cemetery is certainly in an eye sore to the town. If anything is done there will have to be a leader and we sincerely trust some proper person will take the matter in hand and push it to a successful completion.

GETS 7,500.

In the case of Evans' Administrator against the C. N. O & T. P. Railroad, which was the latest case tried at the term of court which closed last week, the jury returned a verdict awarding damages to the amount of \$7,500, which is one of the largest verdicts rendered in a damage suit in this county in many years. Evans was a brakeman and was killed at Flat Rock, being cut to pieces by train on which he was brakeman. The firm of Sharp, Betherum & Cooper, and Judge Catron were attorneys for the plaintiff, and O. H. Waddle & Son, for the railroad company. The case was a hard fought one from start to finish. —Somerset Times

MILLER.—Died at his home in our town last Saturday, Mr. M. J. Miller, aged seventy-nine years. He was a man of excellent business qualities and continued to be active in his accustomed pursuits till long past the age at which men ordinarily drop out of the ranks of the workers. He was a practical, matter of fact man, but had his own way of extracting merriment from life as it went along, and he was not disposed to worry about matters that could be bettered in other ways. This cheerful spirit remained with him to the last and he retained his clearness of intellect up to his closing days. He was the last survivor of the Mexican War veterans living in the county. In the accumulation of wealth he had been successful, being by far the wealthiest man in the county.

More than fifty years ago, Mr. Miller was married to Miss Mary M. Smith, who survives him, and to this union were born thirteen children, but only five are living: M. C. Miller, of Austin, Texas, T. S. Miller, of Santa Rosa, Cal., Hugh M. J. Jr., and Mrs. J. W. Rider, who live in Mt. Vernon. Services were conducted from the Christian church, the church of which he had long since been a member, by the pastor, Rev. McCallum, after which the remains were laid to rest in Elm Wood Cemetery.

Mrs. Rebecca Newcomb passed away Monday April twenty-ninth, at the age of eighty-one. She was born in Laurel county, Kentucky, December twenty-seventh, 1826, and was of pure Scotch parentage. Her grandfather, on both sides having come from Scotland and entered the Revolutionary War, in which they fought until the close;

Mrs. Sarah Duncan aged about 55 years, died in Louisville last Friday morning. If Mrs. Duncan had a living relative she knew nothing of it. For some time before going to Louisville she had made her home with Mr. and Mrs. Willis Griffin. Atty. John W. Brown, whom she had requested to look after her business interests, went to Louisville Friday and brought the remains back to this county for interment in the Providence burying ground.

It is never our desire to see a hardship worked on any one or any one placed to an unnecessary inconvenience, but often times it comes that for the best interests of a community or locality, that certain changes be made, which, in all probability works a hardship on one or more individuals. Such a case is to be found in two instances, to those living on West Main Street. One is the slaughter pen of S. B. Ramsey, located just beyond the town limit. What we say for we know that his intentions in the matter are right, but to have the filth from this pen washed right down the street, passing by two dozen or more houses, is beyond question very unhealthy, and is something not allowed in any other town in the State. The other cause of complaint is the sawdust from the handle factory, which was dumped into a sink or rather a pond and remaining wet all winter has now begun to decay. Fog rises from it in the morning and the odor of decay can be detected for quite a distance. We mention these facts and especially do we call attention of the board of health to it. It seems that the health of that community demands that something be done and before the hot summer months come.

An injury received on the train on the way to the "Home Coming" was the primary cause of her death, and an attack of the grip hastened the end. Her suffering was born with wonderful patience and Christian fortitude, she having never uttered a complaint.

She is survived and mourned by her daughter, Mrs. Bettie Friedrich her grand-daughter, Mrs. von Eichen, and her grandson, Chas. Arnold Borle von Eichen, now on his way to Mt. Vernon.

Grandma has passed sweetly to realms of everlasting peace and joy,

and we mourn not as those without hope.

Short services were conducted at the Christian church by Mr. Cox Tuesday afternoon, after which the remains were laid to rest in Elm Wood Cemetery at this place.

In spite of the majority of 422 against prohibition in Owensboro, there is a question as to whether the city went "wet" or "dry" in Saturday's local option election. It was generally understood and specially stated by some of their numbers that the prohibition people will make an attempt to have the Courts hold that the licensing of saloons in Owensboro is prohibited by the result of the election in the county as a whole.

The county as a whole went "dry" by over 1,500 votes. The contention will be based primarily on a single sentence of the county unit law, or, rather on the ambiguous nature of this amendment act of the Legislature of 1906.

"When an election is held in an entire county and a majority of the legal votes cast at said election are against the sale of intoxicating liquors, then it shall not be lawful to sell, barter or loan such liquors in any portion of the county."

The temperance people of Owensboro held a meeting Sunday afternoon. One merchant said: "This morning there was crap on my door. Thirty years ago to-day there was crap on my father's door. He died a drunkard, and that is why I am for prohibition."

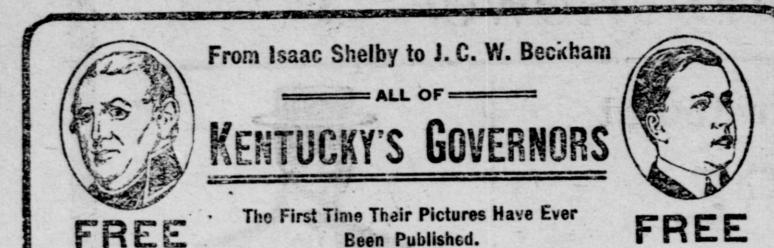

On Monday, Webster county voted dry by 2,000 majority.

Does Your Heart Beat

Does Your Heart Beat

Yes, 100,000 times each day. Does it send out good blood or bad blood? You know, for good blood is good health; bad blood, bad health. And you know precisely what to take for bad blood—Ayer's Sarsaparilla. Doctors have endorsed it for 60 years.

One frequent cause of bad blood is a sluggish liver. This causes constipation and the blood does not circulate well into the body. Keep the bowels open with Ayer's Pills.

MARETBURG

M. Hartz is slowly improving—J. J. McCall and family have moved to Hazel Patch. We dislike very much to give up such good people. Miss Susie Hunt has just returned from Owensboro, where she has been visiting her uncle for the past six weeks. She spends her time in the country, working and helping. She has been employed at Jefferson, Tenn., for the past few months, where visiting his parents, Mr. and Mrs. Nelson Griffin, accompanied by his nephew, Alf Griffin—Mrs. Lou Purcell and son, Freddie, of Corbin, are visiting homesteads—Borden to the wife of Michael Owens a 12 pound boy.—Walter Hunt of Lebanon Junction, was at home last week.—Mrs. Rebecca Reynolds' residence will soon be completed.

Cleveland was seventy years old April 1, and is the only living ex-president. It is interesting to note that of the twenty-five men who have served as president of the United States, eight of the first twelve who filled the office lived to be seventy years of age or older, while of the thirteen who followed in the office of Chief Executive of the Nation, there were but four who lived to the age of seventy—Presidents Fillmore, Buchanan, Hayes and Cleveland. Of the first twelve Presidents John Adams lived to the age of ninety, James Madison died at the age of eighty-five. Thomas Jefferson at eighty-three, John Quincy Adams at eighty, and Martin van Buren and Andrew Jackson at the age of eighty. James Buchanan, the oldest, died at the age of seventy-seven. Millard Fillmore was seventy-four at the time of his death and Rutherford B. Hayes passed away soon after he had reached his seventieth birthday.

For a coal or a cough take Kennedy's Laxative Cough Syrup. It is BETTER than any other cough remedy because its laxative principle assures a healthy, copious action of the bowels and at the same time it relieves irritation of the throat, strengthens the bronchial tubes and allays inflammation of the mucous membrane. Contains Honey and Tar, pleasant to take. Children like it. Conforms to the National Food and Drug Law. Sold by Chas. C. Davis.
